

Curriculum Vitae

Günter Rübeling MDT

- 1949 – 1952 Vocational training as dental technician
- 1958 Graduation as Master Dental Technician in Stuttgart
- 1958 Founding of laboratory in Bremerhaven
- 1982 Introduction of the spark erosion technique into dental technology and founding of the company SAE DENTAL
- 1991 Founding of dental laboratory Rübeling & Klar in Berlin
- 1999 Honorary member of the dental technology working group ADT (Arbeitsgemeinschaft Dentale Technologie)
- 2005 Founding of R+K CAD/CAM Technologie GmbH & Co. KG ORGANICAL CAD/CAM-System in Berlin
- 2009 Lifetime achievement award from the dental technology working group ADT (Arbeitsgemeinschaft Dentale Technologie)
- 2010 Honorary member of the Bremen guild of dental technicians (Zahntechnikerinnung Bremen)
- 2010 Honorary member of the Russian Dental Society
- 2014 Honorary Professorship Daejeon Health Institute of Technology South Korea

Lectures and publications in Germany and abroad:

- ⌘ Spark erosion in dental technology and dentistry
- ⌘ The spark erosion procedure for the precision fit of friction pins, attachments, anchors, swivel latches and pin attachments for the combined fixed / removable dental prostheses
- ⌘ Dental prostheses with double crowns made of CrCoMo and titanium with controlled friction using the spark erosion procedure
- ⌘ Implant meso and suprastructures with passive fit using SAE spark erosion
- ⌘ Interdisciplinary cooperation – surgery – dentistry – dental technology and the application of spark erosion for long-term osseointegration of the implants
